

The EHRI Portal around Holocaust collections is expanding!

Over the past ten years, the European Holocaust Research Infrastructure (EHRI) worked hard to make **archival material on the Holocaust from all over the world findable in one digital portal**. Collection descriptions from large institutions such as the German Federal Archives, Yad Vashem and the United States Holocaust Memorial Museum can now be found alongside each other on one single platform.

And we are not only interested in large-scale archives!

On the contrary! Starting next year, we would also like to start providing access to the collections of smaller archives, or - as we call them - **micro-archives!**

If you are part of - or know of - a **small archival institution, private initiative, grassroots organisation, researcher, community or family archive**, which hosts a collection of original documents, related to the Holocaust, we would like to hear from you!

Please do not hesitate to be in touch via micro-archives@ehri-project.eu and visit us on the EHRI Project Website www.ehri-project.eu.

EHRI is funded by the EU
