Tuesday, September 15

From 13:45 CET Get together on Zoom

14:00-15:30 CET Workshop session: Please choose one of the following three options in advance on our registration website.

- Option 1: Searching OuSArchiv using attributes/indexing data (led by Malgorzata Przybyla, Lothar Figge and Monika Leithäuser)
This workshop will deal with various ways of searching the holdings of the Arolsen Archives using attributes in OuSArchiv, with a particular focus on using the Central Name Index (CNI) to find relevant documents on individual persons. In small working groups, different CNI cards will be tackled with the assistance from experienced colleagues from the Arolsen Archives.
- Option 2: Searching archival descriptions and newly indexed collections (led by Kim Dresel and Franziska Schubert)
During the last year, many collections were newly indexed and cataloged in accordance with new standards, while some collections were catalogued for the first time. This workshop addresses how this might alter and in many cases simplify your search strategies.
- Option 3: Pedagogical workshop on documentED (led by Christian Höschler)
Using documents from the Arolsen Archives for the preparation of memorial site trips in schools is the aim of the documentED project. In this workshop, you can engage in a classroom setting by working with a specially designed “toolkit” containing, among other resources, documents on an individual person who was imprisoned by the Nazis in the very place you and your fellow students would be visiting.

15:30 CET Break

16:00-16:30 CET News on projects/activities from copyholder institutions using documents from the Arolsen Archives

16:30-18:00 CET Update on recent projects at the Arolsen Archives (3/3)
